Writing

Hello! I want to tell you about the computer game that I have recently played. This game is called - Minecraft. Minecraft is an open world of cube blocks where players can freely build and explore imaginary worlds. There is no elaborate scenario or realistic graphics, but there is a lot of space for imagination. The main characters are Steve and Alex. They are friends. There are different tasks in the game. You must find blocks to build your house, find food and tools for construction. Also you should develop your farm, grow new vegetables and collect farm animals. And don't forget to protect your farm from dangerous enemies. The Minecraft is very interesting game, where everyone can develop his imagination, so I would recommend it for boys and girls, as well as for their parents.
